Bloodshed Troops Ordered Out General Lane Shot The Mormon War. St. Louis, Dec. 22.—A letter in the Democrat, from Lecompton, Kansas, represents the Territory to be in a state of great excitement. During a political discussion at Lecompton on the 15th inst., Gen. Lane is said to have been shot by a government official, whose name is

Billy, it is stated, has held councils, and at the risk of his life has entreated the Indians to come to terms with the government, and only saves his life by striking a blow whenev-

er an opportunity offers. The government has been officially advised of the arrival at New York of two boxes of firearms, being a present from her Britanic majesty's government in return for the arms sent thither in August last.

The committee on the Judiciary reported back to the RUGS, DRUGGETS, &c., &c. senate to-day, in secret session, but without any recomwick to be United States Attorney for the District of New York, in place of Mr. McKeon, removed. This gave rise to a discussion involving the merits and some of the features of the late New York mayoralty election. No vote was taken and the question is not pet decided. Many members of Congress, particularly from the North, availing themselves of the holiday recess, are making preparations to leave for their homes.

There is no doubt that the ramifications are numerous and sufficient, if not directly interfered with, of re-establishing the General in the Presidency of Republic. I cannot but wish him success. It will be sometime before any force can be mustered in the field against Walker, as the troops of San Salvador, Guatamala, and Honduras have enough to do at home. It is said, returning to their homes with cholera, these troops infected the Indians of their districts, who, magining that their wells had been poisoned by the soldiers, rose in arms against them and are murdering the patives and whites of every nation.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Hol-

land Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our father-land scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American publicf knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of

life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing.
